Advanced
ExtremeZ-IP DFS Configuration
DFS emulation is an advanced feature and requires
side and client side configuration.
All Mac cl s using DFS must be running Mac OS X 10.4 or later
and have 'Zidget' dashboard widget installed or must be
running Mac X 10.5 or later, be bound to Active Directory and
have the "DF lient" application installed. You should read the
ExtremeZ-IP m ual and/or contact support in order to develop a
deployment pla r this feature.
